<sup>2)</sup> TKS easyMobile eMultiSIM

With the eMultiSIM the phone number and data volume of any 5G easyMobile smartphone tariff can be used on an eSIM capable device e.g. fitness tracker or smartwatch

Per easyMobile 5G smartphone tariff two (2) additional MultiSIM can be added and will share the data volume of the original tariff, exception Unlimited. With the Unlimited MultiSIM each SIM card has a dedicated data volume of 10GB.

Each easyMobile eMultiSIM can be individually terminated to the end of the following month. If the main easyMobile tariff ends the eMultiSIM also ends automatically.

Text messages and Multimedia messages: The main card is preset to receive and send text and MMS

Incoming calls: Incoming calls are signaled on all switched-on devices at the same time.

Outgoing calls: Simultaneous outgoing calls are not possible. You can only call someone at the same time using one of the SIM cards.

Roaming: easyMobile eMultiSIM supports roaming. Your device must also support this function so that you can use roaming.

GigaPasses : The usage of booked GigaPasses will also be available on the easyMobile eMultiSIM.

Remarks: All tariffs are only valid within TKS easyMobile network. Roaming fees apply when used outside Germany and Europe. Before making or using international connections refer to the separate rate sheets that can be obtained from TKS.
