

easyConnect voicemail guide | on-base

Getting started: activate / deactivate your voicemail

Voicemail service is included with your TKS telephone line however the service is initially deactivated by default. You may activate and deactivate voicemail at any time, your greeting, settings, and messages will not be effected.

Activate voicemail

Pick up the phone and dial: ✕ 0 3

Deactivate voicemail

Pick up the phone and dial: ✕ 0 4

Your voicemail PIN

To set up your easyConnect voicemail, you must use the **default voicemail PIN** which is found on your confirmation of service document. After the initial setup you may define a personalized voicemail PIN of your choosing.

What's my telephone number?

To hear a recorded announcement that states your telephone number, pick up the phone and dial: ✕ 10

DIALING IN TO YOUR VOICEMAIL

Access your voicemail – from home

Dial: ✕ 5 5

Enter: **voicemail PIN**

Access your voicemail – remotely
